Enzydetergent

Neutral concentrated biological degreasing cleaner

- Neutral liquid multi-surface detergent
- For manual dishwashing
- Biotechnological product
- Non allergenic

Product information:

Enzydetergent

Neutral concentrated degreasing cleaner

DESCRIPTION

Concentrated biotechnological detergent for the maintenance and cleaning of any kind of surface. Adapted for use in food-processing environments. The active biotechnological components significantly improve the degreasing effect by their capacity to "digest" the dirt.
Food contact approved.

USE

- Cleaning: collect and evacuate the waste and the residual water. Prepare a solution by means of the POD or the dosage system. Soak the surfaces to be treated with the solution. Scour the surfaces with a brush. Rinse with clear water and scrape away the residual water. Leave to dry.
- Dishwashing: evacuate the large scraps. Fill your dishwashing container by means of the POD or the dosage system. Steep the surfaces to be cleaned into the dishwashing container. Brush the crockery. Rinse the crockery with clear water. Leave to dry.

Safe for stainless steel surfaces (when used as recommended).

DOSAGE

- 0,7% (70 ml/10L)

TECHNICAL CHARACTERISTICS

- Color: green
- Fragrance: fruity
- Pure pH: 7,5 ± 0,5

STORAGE

Keep the product in its original closed packaging. Protect against freezing temperatures.

ECOLOGICAL INFORMATION

- Biodegradable product (CE 648/2004)
- Packaging 100% recyclable
