# Odor Line Sanitary Caps

Perfumed ecological cleaner based on citric acid for sanitary environments

## DESCRIPTION

Daily descaling cleaner with Ecolabel, strongly scented, for sanitary facilities. Neutralizes bad smells and leaves a very fresh pine scent.  
Food contact approved.

## METHOD

- Sanitary furniture:
  - Spray the surfaces to be cleaned (wash-hand basins, urinals, showers, WC bowls ...).
  - Scour the surfaces with a sponge, a bottle brush and a bucket of clear water.
  - Wipe with clear water by means of a well dried red microfiber.
- Wall surfaces, doors and points of contact: same method.

## USE

1. Rinse the spray before each refill.
2. Fill the spray with water. Do not fill to the top. Leave enough volume for the concentrate product to mix.
3. Screw the Caps completely on the spray. Mix.
4. Remove the Caps and screw the spray head on.
5. After use, place the empty Caps into its cartridge for recycling.

## WASTE MANAGEMENT

The manufacturer guarantees the complete recycling of empty Caps and their packaging. Consult your dealer for the return free of charge to the manufacturer.

## TECHNICAL CHARACTERISTICS

- Perfume: pine
- Color: pink
- Pure pH:  $2,5 \pm 0,5$
- pH in solution of 0,6%:  $4,5 \pm 0,5$
- Only for acid resistant surfaces. Do not use on marble, travertine and materials containing limestone

## STORAGE

Keep the product in its original closed packaging. Protect against freezing temperatures.

## CONSERVATION

Best use within 2 weeks after dilution based on good storage conditions.

## ECOLOGICAL INFORMATION

- Biodegradable product (CE 648/2004)
- Certified with a European Ecolabel and Ecologo
- Caps 50% recycled and 100% recyclable
- Carton 100% recycled & recyclable
- Raw materials of renewable origin: 87%
- Production 100% carbon neutral

## PACKAGING
