Cirapid

Shine regenerator to use with spray method on soft floors or crystallised stone floors

- Without risk label
- Under the Occupational Exposure Limit (OEL - EU, FR, BE)

Product information:

Cirapid

Shine regenerator for spray method on soft floors or crystallised stone floors

DESCRIPTION

Polymer-based cleaning product for corrective operations on VCT floor or linoleum protection coats, or crystallised stone floors. To be used only with spray method. Cleans and charges the support with fine easy-to-clean protection coats and respreads them.

USE

- Ready to use. Must be used on finished floors with Ecogloss or Ecol silk.
- Output: 200m² per liter of product.
- Cleaning: spray - 400 to 1000 rpm single-disc - red pad. Cleaning product for use on crystallised stone, to keep it shiny. Frequency of use to be determined in conjunction with a Pollet Sales Representative, depending on the business sector in question.
- Usage as part of a spray method: spray undiluted Cirapid in proportions equivalent to one litre for every 200 square metres (2,150 square feet) of floor, spread the product out and get the surface shiny using a single-brush polishing machine (rotation speed: 1,000 to 1,500 rpm) which makes floor surfaces very shiny and which is equipped with a suitable polishing disc.

DOSAGE

- Pure

TECHNICAL CHARACTERISTICS

- Color: milky white
- Fragrance: apple
- Pure pH: 8,0 ± 0,5
- Never mix with other solvents or detergents.
- Does not alter flooring conductance - EN1081 (1998).
- Apply the product preferably at temperatures above 10°C and below 25°C, to avoid irregularities in drying times and the appearance of white marks.

STORAGE

Keep the product in its original closed packaging. Protect against freezing temperatures.

ECOLOGICAL INFORMATION

- Biodegradable product (CE 648/2004)
- Packaging 100% recyclable
