

# Product catalogue for the export

## About Pollet

Pollet is a sustainable family business founded in 1763 that has developed into an innovative leader in the cleaning sectors. Pollet specializes in the research, manufacturing and marketing of efficient, innovative and ecological professional cleaning products. Our objective is to improve the quality of life and well-being of everyone through our industry expertise.

Pollet works with cleaning companies, local authorities and industry. Together with them, we seek complete solutions, drawing on our expertise and developing methods that combine the right product with the right equipment, while respecting both personal health and our planet.

## A responsible company

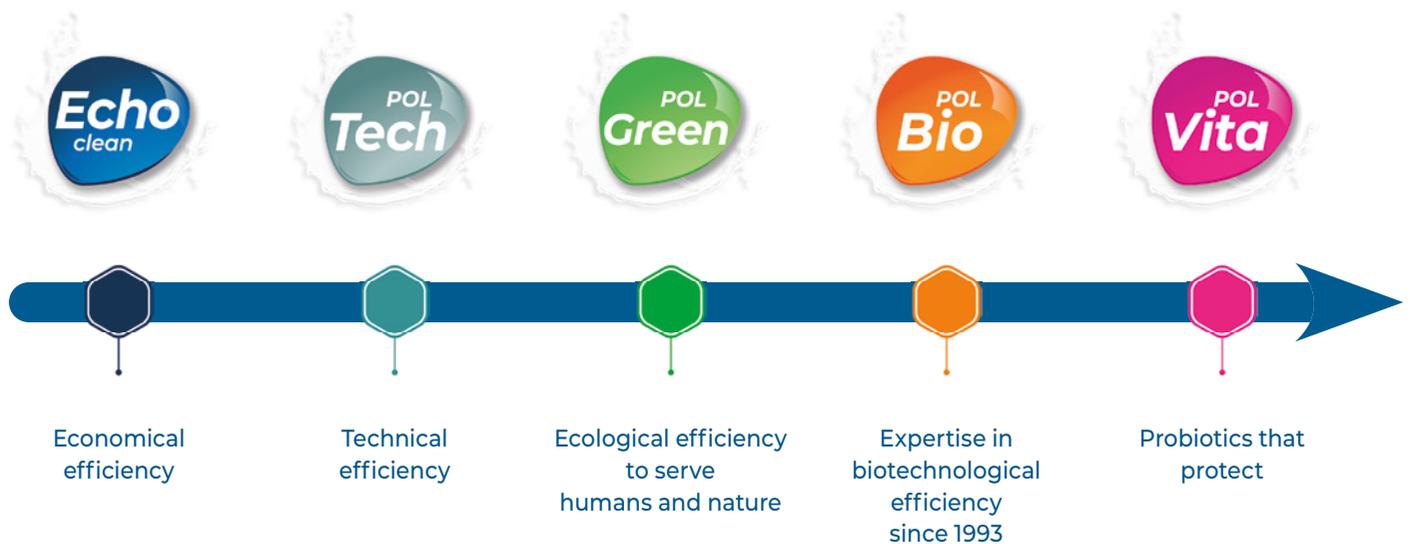

\*In 2023, based on the total sales volume

## Wide choice according to your wishes

---

This catalogue presents a wide range of unique products that offer real added value to users.

The eco-certified **PolGreen** range, the biotechnological range **PolBio**, and the protective probiotic **PolVita** range are particularly safe for humans and environmentally friendly.

## Probiotics by Pollet

---

Through the “Probiotics by Pollet” charter, we are committed to providing high quality products in which probiotics have real added value and whose effects have been analysed and validated following a rigorous scientific approach.
