Concentrated anti-allergen carpet shampoo

- For periodic cleaning of floors and textile furnishings
- Deep cleans and degreases
- Continuously and preventively breaks down the main respiratory allergens, thanks to probiotic activity
- Dries quickly
- Colour-free

AllerClean Carpet Shampoo

Concentrated anti-allergen carpet shampoo

DESCRIPTION

Concentrated foaming carpet shampoo for periodic cleaning of floors and textile furnishings. Particularly suitable for carpets, fabric chairs, sofas and bedding.

Deep cleans and degreases thanks to encapsulation: the cleaning foam traps dirt and dries quickly. Soiling is removed either by a carpet cleaning machine or by vacuuming after brushing the surface. This method provides deeper cleaning than dry cleaning, releases less chemical vapour and allows very fast drying.

Probiotics ensure continuous and preventive breakdown of respiratory allergens present on surfaces. Contributes to a healthier indoor environment. Fresh floral fragrance.

USAGE

- Vacuum the textile surface.
- Apply the foaming solution manually with a brush or mechanically using a low-speed single-disc machine with foam compressor.
- Allow to dry.
- Vacuum.

Pollet does not advise using probiotic cleaners in certain limited hospital areas: high and very high-risk zones (zone 3 and 4).

DOSAGE

- 3% (150ml/5L)

TECHNICAL CHARACTERISTICS

- Fragrance: fresh floral
- Colour: colourless
- Pure pH: $8 \pm 0,5$

STORAGE AND CONSERVATION

- Store the product in its original sealed packaging. Do not allow to freeze.
- A slight deposit may appear.

ECOLOGICAL INFORMATION

- Biodegradable product (EC 648/2004)
