AllerClean Textile Spray

Ready-to-use anti-allergen textile treatment

DESCRIPTION

Ready-to-use solution for the treatment of surfaces and textile furnishings. Particularly suitable for anti-allergen treatment of office chairs, curtains and drapes, armchairs and bedding.

Ensures continuous and preventive breakdown of respiratory allergens present on treated surfaces, thanks to the action of probiotics. Contributes to a healthier indoor environment. Fresh floral fragrance.

USAGE

- Spray the solution directly onto the surface to be treated (mattresses, bed sheets, pillows, etc.).
- Do not apply an excessive amount of product in order to avoid over-wetting the textile.
- Allow the surface to dry before making the bed again, or spray from a distance of approximately 1 meter to distribute the product more finely and limit droplet deposition per cm².
- As an indication, for a single bed, two sprays are generally sufficient to cover the entire surface without excessively dampening the textile.

Pollet does not advise using probiotic cleaners in certain limited hospital areas: high and very high-risk zones (zone 3 and 4).

DOSAGE

- Ready-to-use

TECHNICAL CHARACTERISTICS

- Fragrance: fresh floral
- Colour: colourless
- pH: 6 ± 0,5

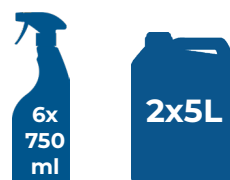

STORAGE AND CONSERVATION

- Store the product in its original sealed packaging. Do not allow to freeze.
- A slight deposit may appear.

ECOLOGICAL INFORMATION

- Biodegradable product (EC 648/2004)

PACKAGING

PACKAGING	POLLET REF.	BARCODE
Carton 6x750ML *	3600041	05411283364102
Carton 2x5L *	3600258	05411283365826

All our packaging is 100% recyclable.
Containers marked with an * contain recycled plastic.
