Hand Dish

Neutral multi-purpose cleaner

- Ideal for the automatic washing of crockery and pots and pans
- Liquid multi-surface detergent
- Dermatologically tested

Product information:

Hand Dish

Neutral multi-purpose cleaner

DESCRIPTION

PolTech Hand Dish is a cleaning product for manual washing-up and a general-purpose detergent for the maintenance and cleaning of any food-environment surface. PolTech Hand Dish penetrates and removes any dirt. Is easy to rinse, and leaves no trace. PolTech Hand Dish is suitable for daily use. Food contact approved.

USE

- Surface cleaning: collect and evacuate the scraps and the residual water. Prepare a solution of PolTech Hand Dish (25 to 100ml per 10L of water). Soak the surfaces to be treated in the solution. Scour the surfaces with a scouring brush. Rinse with clear water and scrape away the residual water. Leave to dry.
- Washing up: fill your washing-up container with water. Add 50ml of PolTech Hand Dish per 10L of water. Place the objects to be cleaned in the washing-up container. Leave to act a few minutes in order to unstick the dirt. Rub as necessary with a scouring brush. Rinse the crockery with clear water. Leave to dry.

DOSAGE

- For routing surface cleaning: 0,25% (25ml per 10L)
- For washing up: 0,5% (50ml per 10L)
- For cleaning very greasy surfaces: 1% (100ml per 10L)

TECHNICAL CHARACTERISTICS

- Color: colorless to yellow
- Fragrance: limon
- Pure pH: 6,0 ± 0,5

STORAGE

Keep the product in its original closed packaging.

ECOLOGICAL INFORMATION

- Biodegradable product (CE 648/2004)
- Packaging 100% recyclable
