Protective Indoors Caps

Protective probiotic cleaner for all surfaces

DESCRIPTION

Daily concentrated probiotic cleaner for all washable surfaces. Establishes a natural protective microflora on surfaces. PolVita probiotics continue to break down dirt for up to 14 days after application for a clearly visible result. Fresh minty scent.

METHOD

Specially suitable for removing dirt from modern surfaces, desk tops, laminate surfaces, washable and enamel paints, telephones, screens, fingerprints on doors, maintenance of contact points (door handles, switches).

- Prepare the solution in a spray bottle.
- Spray the solution onto the surface to be cleaned.
- Wipe using a microfibre cloth.

For switches, it is recommended to apply the product with a piece of paper or with a microfibre cloth for safety reasons.

USAGE

1. Rinse the spray bottle before each refill.
2. Fill the spray bottle with water. Do not fill to the brim, leave enough space to allow the concentrate to mix.
3. Screw the Caps completely onto the spray bottle and shake.
4. Remove the Caps and screw on the spray head.
5. After use, return the empty Caps to the cartridge for recycling.

TECHNICAL CHARACTERISTICS

- Scent: mint
- Colour: blue
- pure pH: 7 ± 0.5

STORAGE AND CONSERVATION

- Use-by date of the concentrated version: 24 months under normal storage conditions.
- Use-by date of the diluted version: 2 weeks under normal storage conditions.
