

SUPERMARKETS AND SHOPPING CENTRES

THE CLEANING SOLUTION TAILORED TO
THE DEMANDS OF HIGH-FOOTFALL AREAS

POLLET, YOUR PARTNER IN INNOVATIVE PROFESSIONAL CLEANING SOLUTIONS

Pollet is a Belgian family company founded in 1763, which develops, produces, sells, and markets ecological, probiotic, and ultra high-performance professional cleaning solutions.

Our goal is to bring about long-lasting change in the professional cleaning sector. We do this by following a robust social, environmental, and quality policy, as proven by the corporate and environmental certifications we have been awarded.

IMPROVING HYGIENE THROUGH OUR EXPERTISE IN LARGE-SCALE FOOD DISTRIBUTION

Our production site is equipped with an in-house chemistry and microbiology laboratory, as well as state-of-the-art equipment that enables us to develop high-quality products meeting both the requirements of food environments and the specific needs of shopping centres and other high-footfall areas.

THE CLEANING SOLUTION FOR: RETAIL SPACES

> FLOOR CLEANING.....	4
> EXPERTISE, SUPPORT AND TRAINING	6

In high-footfall environments such as supermarkets, the cleanliness and appearance of floors play a key role in the store's image and customer comfort.

At Pollet, we help you maintain **a consistently high standard of hygiene**, while enhancing the appearance of your surfaces with **high-performance solutions that protect and clean your floors, leaving them with a lasting shine.**

Our approach is based on **a complete, professional solution** designed to meet all your cleaning and disinfection needs.

It also comes with **personalised support**: cleaning plans, training, communication materials, technical advice and on-site support.

RETAIL SPACES CLEANING FLOORS

EXPERTISE RECOGNISED BY MORE
THAN 50% OF THE INDUSTRY IN
FRANCE AND BELGIUM

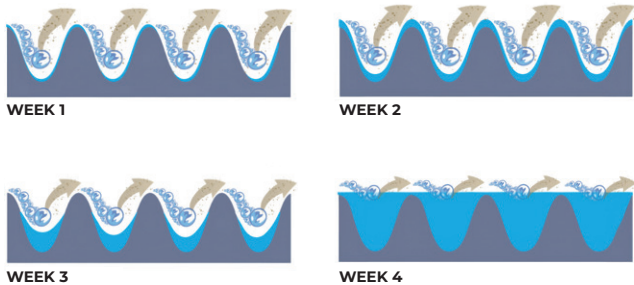

Our expertise in soap-based detergents has enabled us to develop
a unique product on the market:
Linpol Green.

- > Eco-labelled natural soap, formulated using raw materials from renewable sources
- > Deep-cleans and provides lasting protection for your floors, restoring their exceptional shine
- > Compatible with automatic dosing systems, allowing scrubber dryers to be filled quickly and easily
- > Preserves the conductive properties of floors (EN1081)
- > Does not increase floor slipperiness (ASTM 2047)

CLEANLINESS, SHINE AND PROTECTION

Excellent for floor maintenance in hypermarkets,
shopping centres, airports and other large spaces
requiring a product capable of withstanding heavy
foot traffic, while keeping floors clean and shiny
and protecting them against external wear.

Optimises operations through exact dosing and by filling
cleaning machines extremely quickly.

Reliable dosing | Easy to use | Faster filling
Quality and cost control | Operator safety

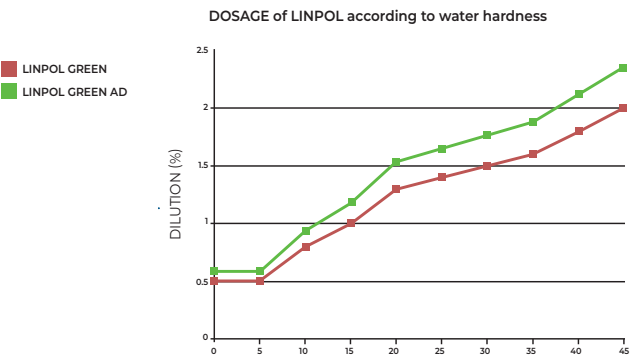

EXPERTISE AND TECHNICAL SUPPORT COMPLIANT WITH HACCP STANDARDS

Benefit from the support and expertise of our professional cleaning teams.

PH DOSING AND CONTROL

Water quality directly affects the effectiveness of cleaning products and operating costs. Our experts will help you analyse the hardness of your water so that dosages can be adjusted precisely. This ensures optimum cleaning performance, consistent quality and controlled product consumption.

MEP SHEETS (METHOD/EQUIPMENT/PRODUCT)

You'll benefit from a library of method sheets designed to help you solve specific cleaning problems:

- > Detailed didactic sheets
- > Effective methods specific to each situation
- > Adapted products and equipment
- > Step-by-step guidance
- > Indication of the equipment, dosage and contact time

In addition to the existing library, we regularly create and update MEP sheets based on requests from our customers or situations encountered by our experts.

PERSONALISED SUPPORT

In addition to these tools and materials, our experts in the field can provide you with support tailored to your specific requirements and situations. They are trained in cleaning protocols and the use of our products. They can also call on the expertise of our in-house laboratory.

CLEANING PROTOCOLS AND PLANS

Our experts can help you adapt your cleaning protocols and plans:

- > Standard or tailored plans
- > By space and surface
- > Adapted to your methods, products and dosages
 - > Frequency monitoring
 - > Indication of inspection points
 - > Reminder of PPE and safety instructions
- > Cleaning monitoring sheets

These cleaning plans are a tool for managing cleaning and maintenance operations and provide daily support for your operators.

BENEFIT FROM OUR EXPERTISE

Try out our maintenance solutions, with the support of our experts, to see for yourself how effective they are. We can provide you with a technical assessment, a detailed quotation and a performance trial in one aisle.

WHY TEST OUR PRODUCTS?

- > **Proven efficacy**
See the quality of our products for yourself.
- > **Customer satisfaction**
Your opinion counts! We are here to listen to your feedback.
- > **Sustainability commitment**
Try products that are respectful of people and the environment.
