XL Hand
Brush in use

The Hand Brush XL is a 230 mm handheld scrubbing brush with extra stiff and sharply angled filaments. The updated “butterfly” design offers a more ergonomic grip. Designed for use in the food industry including meat and poultry processing, the brush is ideal for cleaning:

- » Chopping tables
- » Conveyor belts
- » Cutting boards
- » Buckets
- » Large bowls
- » Meat processing equipment

Meet every need

with our new set of mission-optimised hand brushes

Efficacy

Get the job done better

- » Optimised sizes ensure a precision tool for any cleaning job and hand size
- » Asymmetrical shape provides “2 in 1” versatility
- » Sharply angled filaments improve access to corners and crevices
- » Enhanced stiffness aids in removing tough particles

Productivity

Accelerate your cleaning workflows

- » Mission-specific sizes ensure fastest, most effective cleaning of all surfaces
- » Extra-stiff filaments and asymmetrical “2 in 1” design allows the use of one brush rather than two
- » Due to the hygienic design the brushes are easier to clean
- » Colour coding aids product placement at the point of cleaning

Ergonomics

Go hard on dirt, easy on workers

- » Ergonomic EDGE design fits the hand naturally, comfortably and securely
- » Optimised range of sizes improves efficiency and minimises wasted effort
- » Angled filaments and “2 in 1” versatility reduce required effort and risk of strain

Compliance

Remove all doubt about hygiene

- » All parts are food-contact compliant and meet applicable EU and FDA regulations
- » Colour coding aids compliance HACCP and audit requirements

Hand Brush XL

Extra stiff filaments

Item number: 3894x

Extra large handheld scrubbing brush with sharply angled filaments and “2 in 1” functionality, where the broad end features extra stiff filaments. Ideal for tables, conveyor belts, cutting boards, buckets, large bowls and equipment with hard to access corners. 230 mm.

Fully colour-coded and food contact compliant

- » Flared Bristles: Outwardly flared bristles effectively clean in corners, junctions, and other hard-to-reach areas
- » Industry Favorite: Often used in meat and dairy manufacturing facilities
- » Ergonomics: The new “butterfly” design offers a more ergonomic grip that is easier to hold when used with wet or greasy hands
- » Versatile Cleaner: Commonly used for cleaning tanks, conveyor belts, tables, and other large equipment
- » Hygienic Hanging Hole: Teardrop-shaped hanging hole self-drains and allows the brush to hang on hooks or shadow boards
- » Designed and manufactured in Denmark to meet all applicable EU and FDA regulations

Hand Brush L

Stiff filaments

Item number: 3890x

Large, multi-purpose scrubbing brush with stiff, angled filaments. Ideal for cleaning chopping tables, conveyor belts, chopping boards, buckets, large vessels, food processing equipment, and hard to access corners. 200 mm.

Fully colour-coded and food contact compliant

- » Asymmetrical design with differentiated ends provides “2 in 1” functionality
- » Ergonomic angles and curves ensure a better grip, greater comfort and less risk of strain
- » Stiff bristles used to remove tough soils
- » Angled filaments extend brush size and improve access to corners and crevices
- » Easy grip for large area cleaning
- » Designed and manufactured in Denmark to meet all applicable EU and FDA regulations

Hand Brush M

Medium filaments

Item number: 3587x

Medium sized scrubbing brush with medium-stiff filaments. Very effective for general purpose hand scrubbing, this brush is ideal for cleaning food preparation surfaces, chopping boards and food containers. 165 mm.

Fully colour-coded and food contact compliant

- » Ergonomic angles and curves ensure a better grip, greater comfort and less risk of strain
- » Easy grip for large surface cleaning
- » Designed and manufactured in Denmark to meet all applicable EU and FDA regulations

Hand Brush S

Stiff filaments

Item number: 6440x

Small, ergonomically designed scrubbing brush that can be used to clean hands and arms as well as smaller tables, surfaces and containers. Very effective for cleaning small parts on machinery, cutting boards, knives and similar. 130 mm.

Fully colour-coded and food contact compliant

- » Good for small surface and detail cleaning
- » Ergonomic angles and curves ensure a better grip, greater comfort and less risk of strain
- » Large, angled drop-shaped hanging hole makes hanging and brush cleaning easier
- » Where appropriate, can be used to clean hands and nails
